Notes:

Hercules Graphics

To display Hercules graphics, a Monochrome monitor must be attached to the card with the appropriate hardware configuration settings.

Default Settings

Default hardware configuration settings are in italics.

BIOS ROM type

Use a 16KB ROM image with a 27128 chip and a 32KB ROM image with a 27256 chip. Some ROM utilities (e.g. RAMEGA) may not work with the 16KB/27128 configuration.
