# DVB-S, DVB-T² and analogue TV/radio[1]
# on your Media Center PC!

**Be ready for 3 TV-standards on your PC with only one TV-tuner card.** The WinTV-HVR-3300 is the optimal internal TV- tuner PCIe card for the reception of DVB-S, DVB-T and analogue (cable&antenna) TV.

**The low profile PCI-Express board upgrades your slimline PC easily to a High Definition slimline Media Center solution.** WinTV-HVR-3300 supports the WinTV v7 software and Microsoft Windows 7 Media Center.

**WinTV-HVR-3300 supports all Windows Media Center versions** and is optimized for Windows 7 Media Center. The included remote controller is ready to navigate you through the Windows Media Center application and also supports all features of the Hauppauge WinTV v7 software.

**Watching, pausing and recording your favourite TV shows have never been that easy and flexible.** Simply use your preferred TV application

Microsoft Media Center or the Hauppauge WinTV v7 software and turn your PC into a full featured Media Center. Microsoft certified Media Center remote control included. Control all Media Center functions with the included remote control. Play music, start a slide show, all from your living room couch.

**WinTV-HVR-3300 is a compact, low profile PCI-Express card** that fits in the latest slimline PCs with a PCI-Express 1x slot. WinTV-HVR 3300 comes with both, full height and half height brackets to fit in extra slim and standard PCs.

**WinTV-HVR-3300 is Windows 7 certified.**

**Hauppauge WinTV v7 - Features**
- Watch TV in a windows or full screen
- TimeShift
- Record your TV shows directly to your computers hard drive (MPEG-2)
- EPG (Electronic Program Guide)

1 DVB-T-Radio is not DAB-Radio.
2 A national accommodation with DVB-T in Germany will be finished in the year 2010. On www.ueberall-tv.de you can see which territory supports DVB-T TV.
3 Media Center is included in Windows 7, Vista Home Premium, Vista Ultimate or Windows XP Media Center Edition 2005.
