

Port 78h

before changing it send E6 to port 64h, after changing - E9,
need to check ready line before port 64h change

```
+-----+  
|7 | 6 | 5 | 4 | 3 | 2 | 1 | 0 |  
+-----+
```

```
      |      |      |      +- 0=16K cache, 1=64K cache  
      |      |      |      +- 0: shadow E-F disabled, 1 = enabled  
      |      +- 0: shadow C0-8 disabled, 1 = enabled  
+- 0=cache disabled, 1=cache enabled
```
