

**motherboard chip**

main chipset	520
Chip manufacturer	nVIDIA
graphics chip	none
network card	Gigabit Ethernet

**CPU specifications**

Applicable platforms	AMD platform
CPU type	Athlon64/Athlon 64 X2/Athlon64 FX/Sempron (below 65W)
CPU socket	AM2
bus frequency	HT 1000MHz

**Memory specifications**

memory type	DDRII
memory description	Support dual channel DDR533/667/800

**expansion slot**

Graphics card slot	1 PCI-E X16
PCI slot	3 PCI slots 1 PCI-E X1
IDE slot	an IDE slot
FDD slot	One FDD, connected to the floppy drive
SATA interface	SATAII interface supports NV RAID

**I/O interface**

USB interface	USB 2.0 interface
PS/2 interface	PS/2 mouse, PS/2 keyboard interface
audio port	5.1 channel audio output
video interface	none
Other interfaces	a serial port

**Other parameters**

Power interface	One 8-pin, one 24-pin power connector
CPU Vcore power supply mode	Four-phase power supply solid capacitor

**appendix**

Comes with motherboard	Manual, driver CD, IDE/SATA data cable, bezel
